-  **Powered by 100% green renewable energy**
-  **Electricity / hosting cost included**
-  **Online portal to view performance**
-  **Managed service, including engineers on site**
-  **3 Year Warranty**

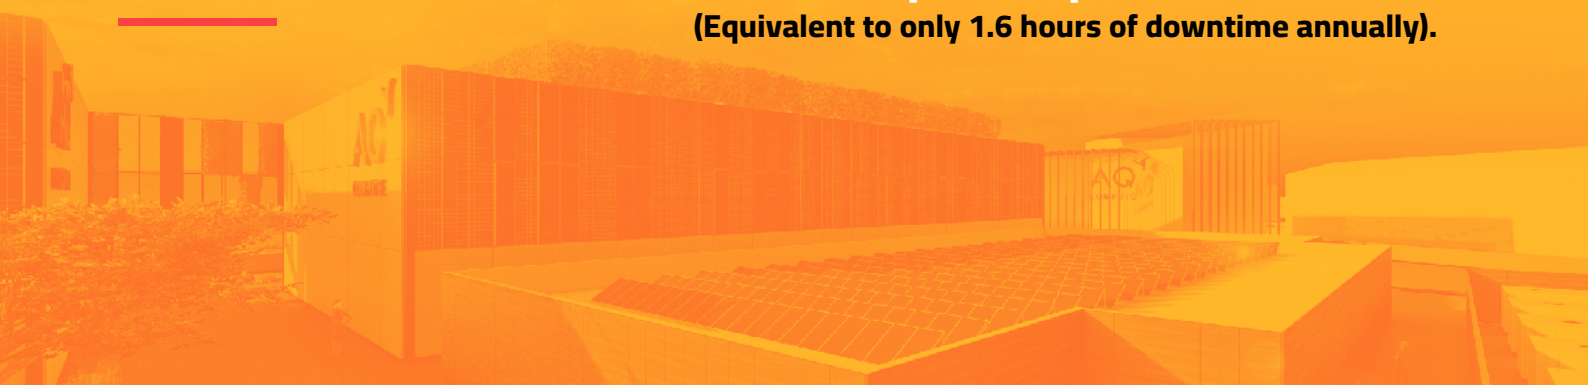

**Your server is packed with some of the best tech components in the market!**

GPUs	CPU	Memory	Storage	Server
 <b>NVIDIA</b>	 <b>AMD</b>	<b>SAMSUNG</b>	<b>KIOXIA</b>	

## Where does all of it go? Tier 3 Data Centre

A Tier 3 Data Centre has multiple paths for power and cooling and systems in place to update and maintain it without taking it offline.  
**It has an expected uptime of 99.982%**  
**(Equivalent to only 1.6 hours of downtime annually).**

# How Does it Work?

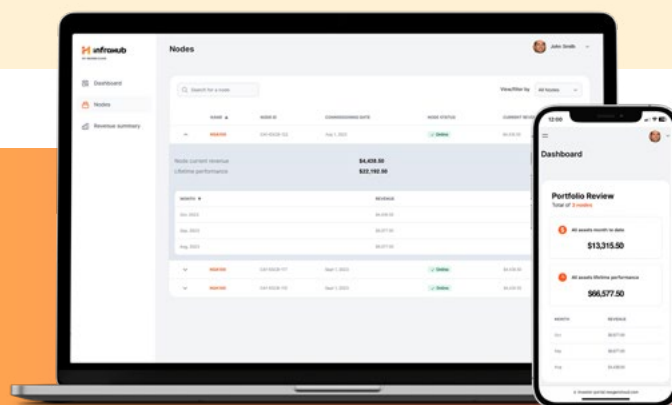

**What Airbnb is to property investors, InfraHub is to hardware investors...**

Through InfraHub, investors can connect their hardware assets with our vast network of users – turning your investment into a passive profit-generating machine.
